

Suffering from
Reflux or Heartburn?

**North Canyon
Medical Center
Introduces:**

**Esophyx
Incisionless
Surgery**

NO more heartburn
NO scars
NO more pills

**Only
Available at
NCMC**

If heartburn or reflux is not fitting into your lifestyle, North Canyon Medical Center has the solution. The new Incisionless Esophyx procedure surgically reconstructs the natural valve that keeps digestive acids in your stomach. Esophyx is performed through the mouth, not an incision. It offers less pain than conventional surgery, is low risk, has no scar and most patients return to normal activities in a few days.
